READ IN MASS MEETING.

The Proposed Dispensary Measure For Guilford County.

SOME DEBATE AS TO HIGH POINT.

The Dispensary Matter Taking Tangible Shape—Debated Points Referred to Attorneys in Case.

A large crowd of representative citizens assembled at the court house last night to discuss the dispensary question. Mr. J. S. Hunter called the meeting to order and asked Mr. W. D. Mendenhall to preside. The bill as prepared was read by Mr. A. W. McAlister and various points discussed. Mr. G. T. Glascock wanted to know why High Point was left out, saying he couldn't see how that place would be affected as it was already a dry town so far as the legal right to sell whiskey was concerned. He was answered that High Point's prohibitory law was a part of the city charter and there was no desire to do anything that would interfere with the charter provisions. After some discussion this point was referred to the attorneys interested in the matter It wes suggested that the High Point people be heard from with reference to the matter. If it is found that a majority of the people of High Point want High Point included in the Guilford county dispensary bill so that High Point will bear the same relation to this measure as any other part of the county, the bill will be changed to suit their wishes.

During the discussion a pleasing incident took place. It was the regular practice night of the Brockmann orchestra and that body led by Prof. Brockmann, filed into the court house and lined up just outside the bar. Mr. Brockmann spoke as follows: "Mr. Chairman: This being our regular practice night we feel that we haven't time to stay and attend the deliberations of this meeting; we didn't come to make music, but we merely called in a body to announce that we are solidly in favor of a dispensary for Greensboro." This was greeted with a storm of applause and the musicians marched out.

On motion the bill was read again by Mr. R. D. Douglas by sections, that those present might get a more thorough understanding of it. After the reading the bill was adopted unanimously, with certain suggestions to be made to the attorneys.

The following is the bill as it now stands and no material changes are likely to be made:

A Bill to be entitled An Act to Establish a Dispensary in Guilford County.

The General Assembly of North Carolina do enact:

Section 1. That it shall be unlawful for any person, firm or corporation to sell, barter or exchange any spirituous vinous, malt or intoxicating liquors, of any kind, in the county of Guilford, except as hereinafter provided; and any one violating this section shall be guilty of a misdemeanor, and, upon conviction, shall be fined a sum not less than one hundred dollars, or imprisoned, not less than six months, or both.

Sec. 2. That (names to be inserted here) shall constitute the dispensary board of Guilford county, which term of office shall begin on the first day of July, 1899; the term of the first one named shall expire in two years from said date; the second, four years, and so on in the order named, the term of one expiring every two years; and all vacancies occurring by the expiration of the term, as aforesaid, shall be filled by the resident judge of the district in which Guilford county is situated, who shall appoint a good and true man, for a term running two years beyond the longest existing term of the said commissioners; and any vacancy, occurring in any other way, shall be filled by the said dispensary board for the remainder of the unexpired term. The said dispensary commissioners before entering upon the duties of their office, shall make oath that they will well and truly carry out to the best of their ability all of the provisions of this act; and the resident judge of the district may remove any of said commissioners when it shall be made to appear that he has violated his oath or has been guilty of malfeasance; and the said dispensary commissioners shall serve without pay or remuneration of any kind: Provided, the said board shall elect one of its members as chairman and one as treasurer, and may allow the treasurer such compensation as they may see fit, and said treasurer shall give bond payable to the chairman of the board of county commissioners, of said county, conditional upon a proper accounting for the moneys that may come into his hands as such treasurer, in a sum not less than five thousand dollars, to be fixed by said dispensary board: Provided, said bond shall never be less than the amount of money in the hands of said treasurer: Provided further, that said treasurer may give bond with some safe Bonding or Trust Company as surety and charge the expense of giving such bond as an expense of said dispensary.

Sec. 3. That said dispensary board, on the first day of July 1899, or as soon thereafter as possible, shall establish one dispensary in said county to be located on one of the principal streets in the city of Greensboro, for the sale of spirituous, vinous and malt liquors, and there shall be no prosecution under this act for the sale of liquor until said dispensary shall be opened. The said dispensary board shall elect a manager, for said dispensary, who shall be a man of good character and sobriety, who shall have charge of the same under the supervision of said board, and who shall hold said position of manager at the pleasure of said dispensary board, subject to be discharged without notice. The said dispensary board may appoint such assistants, or clerks as they may deem necessary, and may discharge them, at pleasure, without notice. The said manager shall be required to give bond, payable to the chairman of the board of county commissioners, in such sum as the dispensary board may determine, not less than $1,000, conditioned upon the proper accounting for all the moneys that may come into his hands as such manager and for the faithful performance of the duties of his office of manager, as prescribed in this act and in the rules and regulations of said dispensary board, and the said manager shall receive such salary or compensation as may be fixed by said dispensary board, which, however, shall never depend upon the amount of sales. The said board may likewise require bonds, payable as aforesaid, and in such amounts as they may deem proper, from such clerks or assistants as they may employ.

Sec. 4. The said dispensary shall have power to employ attorneys, agents and detectives to assist in the detection and prosecution of persons, firms or corporations violating this act, and for other purposes: may employ chemists or other competent persons to test liquors; may borrow money, and shall have power to do all other proper things not contrary to law to carry out the true intent of this act.

Sec. 5. For the purpose of procuring the necessary funds for the establishment of said dispensary, the board of aldermen of the city of Greensboro, and the board of county commissioners of said county, shall appropriate such an amount, not exceeding two thousand dollars, as may be demanded by said dispensary board, eighty per cent. of which amount shall be paid by the said board of aldermen, and twenty per cent. by the said county commissioners, and said amounts shall be repaid out of the profits arising from said dispensary: Provided, said dispensary board may establish said dispensary without receiving said appropriation. The manager of said dispensary shall on Monday of each week, pay to the treasurer of the dispensary board all moneys which he may hold as said manager, and shall keep a strict account of all liquors received by him, the amount sold and the amount on hand, and the said treasurer shall hold and disburse all the funds belonging to said dispensary and after paying expenses and after reserving such a sum as the dispensary board may deem necessary to carry on the dispensary, shall, on the first day of January and on the first day of July of each and every year pay over twenty per cent. of the profits of the said dispensary to the treasurer of Guilford county, and eighty per cent. of said profits to the treasurer of the city of Greensboro.

Sec. 6. The manager of said dispensary shall, under the supervision of said dispensary board, purchase all liquors n cessary and proper for said dispensary, and may purchase such pure liquors as may be in the hands of the liquor dealers in the city of Greensboro: Provided, that said dispensary board shall refuse to pay for all liquor found not to be pure.

Sec. 7. No liquor of any kind shall be sold in said dispensary on Sunday or election days, and said dispensary shall never be open, or liquors sold therein, before sunrise nor after sunset on any day. The prices at which said liquors shall be sold shall be fixed by said dispensary board: Provided, all sales shall be for cash and at a profit not exceeding eighty per cent of the cost thereof. No liquors shall be sold in said dispensary except in unbroken packages, or bottles, which shall contain not less than one-half pint and not more than one quart; and it shall be unlawful for said manager, or any other person, to open any such package or bottle on the premises, and the said manager shall not allow loafing or loitering or drinking on the premises, and any person drinking liquors on said premises and any person refusing or failing to leave the said premises after being ordered so to do, by the said manager, shall be guilty of a misdemeanor.

Sec. 8. Before selling or delivering any intoxicating liquors to any person, an application must be presented to the manager or his clerk or assistant, printed or written in ink, stating the kind, quantity and price of liquor wanted, dated of the true date, with his or her true name signed thereto, and the manager shall keep a book for this purpose. If any person shall make any false or fictitious signature, or sign any name other than his own to any application or make any false statement on any request or application he shall be guilty of a misdemeanor. No intoxicating liquors shall be sold to any minor, intoxicated person or habitual drunkard, and the dispensary board shall make such rules and regulations, not inconsistent with this act, as may be proper for the management of the dispensary.

Sec. 9. If the manager or clerks shall procure any intoxicating liquor from any person other than those that the dispensary board shall direct, and offer the same for sale, or shall adulterate or cause to be adulterated any intoxicating, spirituous, vinous or malt liquors by mixing with coloring matter or any drug or ingredient whatever, or shall mix the same with water or with other liquors of different kind or quality, or shall make a false entry in any book or return required by this act, he shall be guilty of a misdemeanor.

Sec. 10. Every person who shall directly or indirectly keep or maintain by himself or by associating or combining with others, or who shall in any manner aid, assist or abet in keeping or maintaining any club room or other place in which intoxicating liquors are received or kept for use, barter or sale, as a beverage, or for distribution or division among the members of any club or association by any means whatever, shall be guilty of a misdemeanor.

Sec. 11. All books required to be kept by the manager of said dispensary shall be open to the inspection of the public, and any person, firm or corporation violating any of the provisions of this act shall be guilty of a misdemeanor, and upon conviction shall be fined in a sum not less than one hundred dollars and imprisoned not less than three months, or both, except where the penalty is otherwise provided, and all fines under this act shall go to the county school fund.

Sec. 12. That all laws and clauses of laws in conflict with the provisions of this act are hereby repealed: Provided, that this act shall not apply to the city of High Point and shall not be construed so as to repeal any prohibitory laws already in force; and Section 3111 of the Code shall not apply to this act.

Sec. 13. That this act shall be in force from and after its ratification.

NOTES.

Some good people from the county have expressed the opinion that the county should have a larger slice of the revenue of the dispensary than that provided in the bill. The bill provides that twenty per cent, shall go to the county and eighty per cent. to the city. As the matter now stands sixteen and two-third per cent. of the revenue from the license goes to the county and the balance to the city. It will be seen that under the proposed dispensary law a larger percentage goes to the county and the aggregate will be three or four times as much as heretofore. This explanation will doubtless satisfy those who have felt that the county should have a larger share.

It is urgently requested that all petitions for the dispensary which have been circulating in the city of Greensboro shall be delivered tonight at or before 7:30 o'clock at headquarters on court house square.

Building Prospects.

The Telegram learns from an indisputable authority that a handsome office building will be erected on North Elm street during the coming spring. The building will be two or three stories high, nicely finished throughout and up-to-date in every respect. This is not the same one mentioned in the Telegram a few days ago, which though in North Greensboro, will not be on North Elm street.

The prospects are that this will be the most prosperous and lively year Greensboro has ever seen and that more splendid business houses and residences will be erected than in any one year in the city's history.

At The Academy.

The hypnotic performance at the Academy last night was one of the best yet given. The performance tonight will include the intensely amusing scene, at the circus, and a number of specialties. Those who have not seen Santanelli are missing lots of fun.

THE COURT RISES TO ALGER

The Secretary of War Testifies In The Eagan Case.

EAGAN'S SOLDIERLY BEARING.

An Attempt Is Being Made To Show That General Eagan's Mind Was Affected By Miles' Charges.

By Wire to THE TELEGRAM.

Washington, Jan. 27—Secretary Alger was appointed to witness in the Eagan case and the court rose in a body when the Judge Advocate announced his presence, saying:

"The defense wishes us to introduce Hon. Russell A. Alger."

In answer to Attorney Worthington's query, Secretary Alger said he remembered having a conversation with General Eagan about the testimony of General Miles. Eagan came to his office very much excited and wanted charges preferred against Miles. "I told him," said Mr. Alger, "that under the order of the president it couldn't be done."

"Had you any instruction from the president to that effect?" asked Mr. Worthington.

"The president told me so," replied the secretary.

Mr. Alger was then excused, the court rising again as he retired.

General Eagan is a trifle paler than on yesterday, but with no less a soldierly bearing he appeared before the court convened. Many members were seated when Gen. Eagan entered. Only one approached and conversed with him. David R. McKee testified to Eagan's preoccupied manner in the street.

When Gen. Eagan was on the stand yesterday he spoke of his mental and physical condition between the time General Miles gave his testimony and the time he himself had appeared. He could not get rid of the thought that the country believed him to be a murderer and for gain, and it drove him nearly to distraction.

IMMUNITY ORDER.

Washington, Jan. 27—Major Miles, recorder of the war inquiry commission, says, so far as he knows, the immunity order of the president was not reduced to writing. The Judge Advocate read the president's address assembling the war inquiry commission, which was unsigned. The witness was asked whether any other instructions had been given and replied they had not. The witness was present at the meeting of the president and the members of the commission, and says: "I think Dodge called up the subject of immunity and the president said the witnesses before the commission could testify without any fear of punishment or prosecution."

By Wire To THE TELEGRAM.

Edmonton, N. W., Jan. 27—Word has been received at Laid's River, under date of Aug. 26th, that John Mason, the leader of a large Philadelphia party bound for the gold fields, was accidentally drowned in Nelson river, three miles above its mouth, on August 24th.

The Philadelphians, with a party from Chicago were rafting horses and outfits down the river when Mason's raft struck a sand bar. The horses were unloaded to float the raft, and Mason stayed with them on the bar while the raft drifted down to make a landing Later the men on the raft heard Mason shout. He was in the water driving the horses ashore. His hat was found half a mile below, but the body was not recovered.

Municipal Election.

Special to the Telegram.

Reidsville, Jan. 27—The municipal election here yesterday resulted in the re-election of the old board of aldermen, with the exception of Capt. Ellington, who is in Cuba, and J. B. Johnson. They were succeeded by Wm. Young and C. N. Evans. Mayor R. T. Williams was re-elected without opposition.

FRIDAY, JAN. 27, 1899.

Elsewhere today we print a short letter from Rev. M. A. Kelsey, of the Friends church, High Point, in which he defends the position taken by Rev. J. F. McCulloch, of this city. We respect and honor these gentlemen for their courage and no one raises a doubt as to their absolute sincerity; but we believe that time will convince them of what we now believe to be their mistake in attempting to defeat the dispensary movement in the hope of securing absolute prohibition. We have no apology to make for declining to publish Mr. McCulloch's letter yesterday which was offered as an answer to a question in this paper the day before, and which he had published in the Record, stating that we refused it but failing to state our reason for so doing. Mr. Kelsey's note comes nearer the point, and we gladly publish it.

Old Folger—That's what I can't make out. He says he is engaged in the destruction of weeds. Now, that may mean he's smoking a good many cigars or that he is trying to induce some widow to make a second venture or it may simply mean that he is doing farm work.—Boston Transcript.

Making It Effective.

"I'll give you 30 days in the workhouse," said the judge. "I ought to give you six months."

"Thanks for the clemency," said the culprit.

"No clemency at all, I assure you. I am afraid if you staid that long you might get used to it and not mind it."—Indianapolis Journal.

Canton, O., Jan. 25—One-legged Ira Schevier, of this city, has just undergone a second amputation of his shortened leg in Chicago, in order that the cork leg he attaches to it may better fit him, so that he can earn a high salary representing a Chicago artificial leg manufactory at the Paris Exposition in 1900.

THE SASSAFRAS PLANT.

From It May Be Brewed a Pleasant Tea and a Good Mucilage.

A correspondent of the Charleston News and Courier says of the sassafras plant: "The whole plant is valuable for its medicinal properties. The root makes an excellent tea, spicy and fragrant, and has alterative virtues quite as good as the sarsaparilla. The stalks have an inner pith that, although tedious to extract much of it, when scraped out and put into cold water and agitated for a few moments with a spoon forms a most thick and tenacious mucilage, retaining a delicate flavor of the smell of the sassafras and is a bland and soothing drink in fevers, when the mouth is dry and great thirst exists. It is frequently retained gratefully when plain water is ejected.

It is astonishing how mucilaginous a small quantity of this pith makes a tumbler of water, which becomes thick, as gum arabic water. A mere teaspoonful of the pith taken out of the small green branches of the bush will make three or four tumblerfuls of thick mucilage.

For inflamed eyes this mucilaginous water is very soothing and curative and has long been used for all forms of inflammation of delicate tissues, but is so simple that it is ignored by the profession.

The oil of sassafras, which is made from the root as well as other parts of the plant, makes a splendid liniment for pains and aches in combination with turpentine in proportion of one-third of the former to two-thirds of the latter. Other stimulating tinctures, such as spirits of ammonia, are sometimes added, but the chief ingredient of the lightning liniments hawked about by itinerant quacks are composed principally of sassafras oil, which is really pungent and effective.

THE PRICE OF PEPPER.

It Helped to Change the History of the Old World.

In the sixteenth century all the pepper consumed in England was bought by the English merchants from the Dutch, who brought it from India. Owing to racial jealousy, the Dutch traders in 1599 raised the cost from 3 shillings to 6 shillings per pound. This petty display of ill feeling caused considerable annoyance to the English merchants and aroused in them that feeling of independence which has always been so characteristic of our race.

They determined to import their pepper direct from India in their own ships, and for this purpose formed a company, called the Governor and Company of Merchants of London Trading to the East Indies, and which in latter days became eventually known as the East India company.

Their first voyages embroiled them in almost innumerable quarrels with the Dutch and Portuguese, and for a time the venture proved a financial failure. It was not until 1615 that the company became successful and obtained lucrative treaties, owing to their decisively defeating the Portuguese.

From this time on their possessions gradually increased, slowly at first, and then very rapidly, until, by the wise and beneficial management of such men as Clive, Warren Hastings and Cornwallis, they exercised sovereignty over the greater portion of India.

In this manner it happened that an increase in the price of pepper momentously affected the history of mankind. —London Standard.

A Shining Mark.

A lady, grievously tormented with a corn on her toe, was advised by one of her friends to anoint it with phosphorus, which in a weak moment she did, but forgot to tell her husband before retiring at night. It had just turned 12 when the husband awoke, and was startled to see something sparkling at the foot of the bed.

He had never heard of a firefly in the locality, nor did he ever remember seeing such a terrible looking object as the toe presented. Reaching carefully out of bed till he found one of his slippers he raised it high in the air and brought it down with great force upon the mysterious light.

A shriek and an avalanche of bedclothes, and all was over. When at last he released himself from the bedclothes, he discovered his wife groaning in a corner of the bedroom, but she had not got that phosphorated corn.—London Answers.

Weather Forecasts.

The first attempt at scientific forecasting of the weather was the result of a storm which during the Crimean war, Nov. 14, 1854, almost destroyed the fleets of France and England. As a storm had raged several days earlier in France Vaillant, the French minister of war, directed that investigations be made to see if the two storms were the same and if the progress of the disturbances could have been foretold. It was demonstrated that the two were in reality one storm and that its path could have been ascertained and the fleet forewarned in ample time to reach safety.

Qualified to Do It.

"Did you know," said the tooth carpenter, looking up from his paper, "that the Indians practiced dentistry in the earliest times?"

"I didn't know it," replied the man who had once sat in a dentist's chair, "but I am not at all surprised. The Indians have always been a brutal and cruel race."

Then he laughed gleefully, forgetful of the fact that there was still time for the dentist to add $15 or $20 to his bill. —Chicago Post.

Mr. S. A. Fackler, editor of the Micanopy (Fla.) Hustler, with his wife and children, suffered terribly from La Grippe. One Minute Cough Cure was the only remedy that helped them. It acted quickly. A DESERTED MARBLE TOWN.

Gold Discovery That Built Bridgewater In a Canadian Wilderness.

"Up in Ontario," said J. W. Wheatley, a civil engineer of Montreal, "there is a deserted town called Bridgewater, which is built entirely of marble. About 25 years ago a farmer's wife was searching in the woods for a pig that had strayed from the family pen. In a particularly dense part of the woods she found a spring of crystal water. Being thirsty, she stooped over to drink. As she did so she slipped on a round stone which rolled from under her foot and fell into the water. Attracted by the peculiar color of the stone, she fished it out and took it home. It was found to be a 20 pound nugget of almost pure gold.

"Bridgewater at that time was about 40 miles from the nearest railroad, and the site of the town was a howling wilderness. But such was the effect of the accidental discovery of gold that within six months the wilderness had blossomed into a bustling, substantial city of 5,000 inhabitants and more a-coming. They came from every quarter. There were old forty-niners from the Pacific slope, amateurs from England and the United States, prospectors from every field. Shafts and tunnels were driven by hundreds.

"In sinking a shaft one mile south of the town on the claim of B. Flint, a life senator of Canada, a vein of white marble was found. At the suggestion of Senator Flint, who wanted little or nothing for the material, the town of Bridgewater was built solidly of marble. It has even to this day a courthouse, school, church, hotel, stores and private dwellings constructed wholly of white marble. One mile north of the town are an abandoned grist mill and an ax factory whose foundations are built of marble.

"While the town was booming the entire country adjacent was prospected. Some of the shafts and tunnels driven were more than 100 feet in depth, but, remarkable as it may seem, there was never sufficient gold found by the prospectors collectively to pay the cost of a single mine in the district. Still, the earlier disappointments only increased the virulency of the gold fever, which laid hold of the farmers around Bridgewater with a particularly tenacious grasp. In fact, so excited did they become that many of them actually employed armed guards to prevent trespassers from picking up the loose gold which they imagined existed on their places in vast quantities.

"The place where the original nugget was found by the woman in quest of a pig was christened Aladdin's cave, and land in its vicinity sold for fabulous prices. One farmer whose farm adjoined the cave sold five acres to an English syndicate for $100,000 cash. The syndicate spent another $100,000 in developing the claim, but never obtained a single ounce of free gold. In all it mined about 100 tons of quartz. In return the syndicate received a bill for about $375 smelting charges over and above the value of the gold in the quartz. It was the last shipment of quartz, for the cost of hauling, shipping and smelting was in the neighborhood of $150 a ton more than the rock produced.

"One old Irishman at Bridgewater, Patrick Kehough by name, received an offer of $125,000 cash for his farm, which consisted of 100 acres of rock piled, barren land. He promptly refused the offer, holding out for $150,000, which he never got. Today one could buy the property for almost anything over $1 an acre.

"Within a couple of years it became patent to all that mining in Bridgewater would never pay. So silently, one by one, the prospectors stole away from their marble residences, to be followed shortly by the owners of the marble stores, leaving the once thrifty town to settle down to a lonely, weed choked and futureless desuetude."—New York Sun.

Men and Eggs.

German science announces that everything needed to make a man weigh 150 pounds can be found in the whites and yolks of 1,200 hens' eggs. Reduced to a fluid the average man would yield 98 cubic meters of illuminating gas and hydrogen enough to fill a balloon capable of lifting 155 pounds. The normal human body has in it the iron needed to make seven large nails, the fat for 14 pounds of candles, the carbon for 65 gross of crayons and phosphorus enough for 820,000 matches. Out of it can be obtained besides 20 coffeespoonfuls of salt, 50 lumps of sugar and 42 liters of water.

Class of 1900's Yell.

The pharmacy juniors don't seem to know their class yell. I give it again for the benefit of those who don't know it, and now "let's get a move on us" and let the seniors hear our yell once anyhow:

Physostigma venenosum!
Philocarpus nodulosom!
Staphisagria, bergamot!
Pharmacy, pharmacy!
Naughty naught!

—Purdue University Exponent.

The Kaiser's Next.

An Italian journal says that the German emperor will during the winter take a short holiday in Rome, where he will give a grand costume ball at the German embassy. This would add one more costume to those in the kaiser's collection, for the dresses are to be those of the Roman empire. The embassy is being restored, and the paintings in the principal room will cost, it is said, not less than £8,000.

Society.

"What do these here anarchists want?" asked Mr. Oilrox. "To do away with the rich?"

"More than that," said his guest. "They would do away with society."

"I don't know," said Mr. Oilrox, after a cautious glance to see if his wife were in hearing, "but what I'm with 'em."—Cincinnati Enquirer.

Mr. Elisha Berry, of this place, says he never had anything to do him so much good and give such quick relief from rheumatism as Chamberlain's Pain Balm. He was bothered with shooting pains from hip to knee until he used this liniment, which affords prompt relief.—B. F. Baker, druggist, St. Paris, Ohio. For sale by C. E. Holton.

The Nebraska legislature has voted against the seating of Senator Roberts, congressman-elect from Utah.

A Diabolical Invention.

Details are given of an invention which fills us with dismay. According to the account furnished by the inventor, his new phonographic voice trumpet magnifies musical and vocal sounds in such volume as to render them unendurable in a room and satisfactorily distinct two miles off. In time he hopes to extend the stentorophonic capacity of this terrible trumpet to thrice that distance. His first idea was to enable ship captains to converse in a heavy sea fog or at night. Now, however, he has realized that by the aid of his sound magnifier telephones can be made which will allow a political speaker or professional vocalist to entertain three or four audiences seated in halls wide apart at one and the same time.

The power which is thus placed in the hands of those who are fond of hearing their own voices is nothing short of devastating. Imagine again the inflammatory effect of a debate in the French chamber being "switched" on to the working quarters, or of Sir Ellis Ashmead-Bartlett simultaneously ravishing the ears of the house of commons and of a "demonstration" in Hyde park. Seriously, it is impossible to profess enthusiasm for an invention calculated to enhance the dominion of din under which modern dwellers in cities incessantly groan.—London Spectator.

Wanted the Title.

A correspondent of the Toronto Globe at Washington says that at a luncheon given to the Canadian commissioners the women present kept the menu cards and got the commissioners to write their names upon them, that they might have a souvenir of the occasion. One woman saw with undisguised concern her card filling up with plain everyday names. She was astonished that Sir Wilfrid and the other Canadian knights signed their names without the prefix of Sir, but as she neared Lord Herschel she felt that things would be different, for was he not a lord high chancellor of England?

Her astonishment turned to dismay when the card again came back, this time with the single word Herschel. "Herschel!" she said. "Herschel! Why doesn't he sign it 'Lord Herschel?'" In vain it was explained to her that peers signed only their titles, and that it would be very bad form to put Lord before it. She had been bunkoed and knew it. In that souvenir today there is no doubt a footnote for the benefit of her friends, explaining that Herschel is a lord, even though he doesn't acknowledge it himself.

An Expensive French Soldier.

It is open to question whether France has had her money's worth out of Private Petit, who was recently serving in the One Hundred and Fifty-eighth infantry regiment at Lyons. Petit was born in the republic of Paraguay, of French parents, who neglected to make the necessary declaration at the consulate. Ignorant of this, he came to France and was promptly arrested as a deserter and sentenced to a term of imprisonment. When this was over, he did his three years' service, at the expiration of which he demanded, in accordance with the law, his expenses for his journey home. Attempts were made to persuade him that France was a more desirable country to reside in than Paraguay, but he refused to be convinced and insisted on the sum to which he was entitled being paid him. Expenses being allowed at the rate of so much per kilometer, Petit's little bill came to 4,125 francs. It may be doubted if his services to his country were worth this amount.—Paris Letter.

Interested Queen Victoria.

Queen Victoria took a good deal of kindly interest in the recent marriage of the niece of the late John Brown. Miss Brown was one of her majesty's many goddaughters and was named Victoria. As a child she often accompanied her uncle to the castle, and the queen gave her hosts of pretty toys. For a wedding gift her majesty sent her a silver teapot inscribed "V. B., From Victoria, R. I., November 8, 1898," as well as presenting her with a handsome wedding dress and a bridal veil with orange blossoms and lucky white heather.

The Seat of the Soul.

The facetious man ambled gingerly over the icy pave.

"These are the times that try men's soles," he called to a passing friend. He threw a heavy emphasis on the "soles" and the friend smiled.

At that moment the punster's feet flew from under him and he came down with a resounding thwack.

"I see," said the passing friend, with much gravity, "that the exact seat of the soul is still a matter of doubt."—Cleveland Plain Dealer.

Her Suggestion.

"Do you know what is the best way to kill time in the winter, Dick?" said an Alleghany girl to her steady company.

"I know several ways. But which is the best way?"

"Sleigh it."—Pittsburg Chronicle Telegraph.

Opening of the Social Season and Inauguration of the Magnificent

New York & Florida Limited Service

JANUARY 16, 1899.

The opening of the Florida season will be signalized this year as usual by the placing in service of the "New York and Florida Limited" between New York and St. Augustine, Fla. This is acknowledged to be the finest train in the world, in its appointments, luxury and detail of finish, and the first of these trains was constructed by the Pullman company for the use of the President of the United States on official tours.

"The New York and Florida Limited" leaves New York daily except Sunday at 11:50 a. m., via the pennsylvania Railroad, the Southern Railway, Florida Central & Peninsular R. R. and the Florida East Coast Railway, and reaches St. Augustine at 2.20 p. m. the following day, making the run, which exceeds 1,000 miles, in little more than twenty-four hours. No train has attracted so much attention, and its fame has been heralded wherever railroading is known. It is composed of Pullman compartment cars, each room being finished in different woods and supplied with private lavatory and toilet; Pullman drawing-room sleeping cars of the latest pattern and finish; a royal club car for the gentlemen; an observation car with a handsome drawing room at its rear opening on to a wide platform; a library car, and dining car, in which the service and the cuisine rank with the finest New York hotels. This "New York and Florida Limited" runs through solid to St. Augustine with the exception of one car which is detached at Columbia, S. C., and goes through to Aiken, which it reaches at 9:35 the next morning after leaving New York, and Augusta at 9:50. Brunswick and Jeckyl Island are conveniently reached by this train at 12 o'clock noon through the perfect connections afforded at Everett, Ga.

There are two other fine trains between New York and Florida via "The Florida Short Line," one the "Washington and Southwestern Vestibule Limited," leaving New York at 4:20 p. m. daily, and the "United States Fast Mail," leaving New York at 12:05 midnight. The former train carries through Pullman drawing room sleeping cars between New York, Jacksonville and Tampa, and also offers Pullman sleeping car service between New York and Augusta, Ga., with connections for Aiken, Brunswick and Jekyl Island. The latter carries through drawing room sleeping cars between New York and Jacksonville, connecting with parlor car service to points on F. C. & P. R. R. and F. E. C. Ry. Dining cars are operated on all trains of the Southern Ry. "The Florida Short Line" is connection with the Florida East Coast Railway to Miami offers the most direct, quickest and delightful service to Nassau, Havana and Key West. For full information, reservations, etc., apply to J. L. Adams, G. E. A., F. C. & P. R. R., 353 Broadway, New York, or to A. S. Thweatt, E. P. A., Southern Ry, 271 Broadway, New York.

Coughing injures and inflames sore lungs. One Minute Cough Cure loosens the cold, allays coughing and heals quickly. The best cough cure for children. Perfectly harmless. Howard Gardner.

Against the Dispensary.

High Point Jan. 26.

Editor Telegram:

Dear Sir—I have read with interest Brother J. F. McCulloch's note in yesterday's Telegram, and your editorial reply, and beg leave to say that my sympathies are with Brother McCulloch in the position he takes. And the fact that the saloon men favor his attitude on the dispensary, is not necessarily an argument against him, for the reason that the ends sought are as far apart as the poles. The saloon men want to leave the present system undisturbed, while Brother McCulloch desires to keep the track clear for a local option election next June, and the total distruction of the legalized dramshop.

To my mind, while the dispensary system may have some features that are an improvement over present conditions, its adoption means a prolonged existence of the traffic and an intimate partnership of the people in the saloon. In fact, if this movement for a dispensary obtains every person who has advocated it, ministers, church members and all, will be proprietors and as such as truly engaged in the business as those who handle the goods. May our good sense and Heavenly wisdom save us from such an alliance.

M. A. Kelsey,

Known by Public Works.

Editor of Telegram: Let the world know, from north to south, east to west, that there is a town in North Carolina by the name of Greensboro, that with her progressive march will soon be worthy the name of "the central city of North Carolina." A city that covers as much territory as Greensboro needs a good system of street cars. Some people seem to look through the dollar on every question and the dollar must come to themselves and come now. Is there a railroad in the state that paid a handsome dividend the first year it was built? Street cars are of great value to a city beyond the direct dollars and cents that are made by the operators. An enterprising town is known by her public works: Factories, shops, streets, water and lights—not her few residences. R. R. Moore.

Greensboro, Jan. 27, 1899.

Died in Washington.

BELOW ZERO.

Witnessed and Enjoyed by a Good Crowd Last night.

The plot in Below Zero, by the Jolly Pathfinders, at the opera house last night, was slender, but the performance was one of the funniest and most enjoyable ever presented in Greensboro, by a popular price company. The play was one filled with ridiculous situations, funny and fresh expressions and kept the audience laughing during the entire performance. The specialties were good, and especially those by Miss Myrtle, who, as usual captured the audience.

Arrold Grub, was under a cloud, but truly, a la la, and played the leading part to perfection.

The Rentfrow Comedy company is a good one, and is fully sustaining its reputation for being one of the best repertoire companies on the road. The house was comfortably filled last night.

Tonight The Middleman, will be put on. It is advertised as "the great play" and claimed to be one of the best in the company's entire repertoire.

New Dry Goods Store.

C. E. Holton yesterday rented, by telegram, the K. of P. building on South Elm street, to Messrs. Belk Brothers, large merchants of Charlotte. They will establish a branch dry goods store here. The Charlotte Observer says of Mr. D. R. Harry, who will manage the Greensboro branch:

Mr. Harry is universally popular here. He was formerly a merchant, but has lately been engaged in the insurance business. He is an active churchman, being a deacon in the second Presbyterian church, and there, as elsewhere, he will be missed. The departure of himself and family will be a matter of regret to a large circle of friends.

A False Alarm.

The firemen were called out shortly after 2 o'clock this afternoon and responded immediately, but fortunately their services were not needed. The cause of the alarm was a chimney burning out at 865 South Elm street, though the alarm was turned in from box 53, nearly a quarter of a mile from the scene of the supposed conflagration.
